OBJECTIVE

To obtain a full time job working as an App developer to design, maintain and produce secure apps. I aim to contribute to innovative projects, enhance user experience, and expand my technical expertise in mobile application development.

SKILLS

Flutter, Dart, Bloc, Provider, Hive, Sqflite, Firebase, HTML, CSS, Tailwind, Nodejs, Mongodb, Php, laravel, MySQL

EXPERIENCE & PROJECTS

1. XpertConsortium Technologies LLP (Flutter Developer) (May 3rd 2023 –)

Eduon learning app, Emtees learning app, Wise learning app, Lifescool app

- Developed multiple learning app that focus on personalized education.
- Supported multimedia contents including videos, documents and audio materials.
- Enable offline access for uninterrupted learning and integrated real-time chat for user communication.
- Implemented payment integration using Razorpay, Instamojo and PhonePe.

Majoc App

- Developed a user-friendly PDF viewer app with a page search feature, enabling users to navigate quickly to specific pages within documents.
- Included Pdf download feature that allows users to save documents directly for offline access.

Miniature Apps [12 apps]

- Designed and developed miniature mobile applications like Birthday reminder app, Money tracker, Music player, Pomodoro app, Notepad, Habit tracker, All calculator app, Mood tracker, Book reader, Addiction tracker, Water tracker, Tabata tracker

2. Reubro International (Flutter Developer) (Oct 3rd 2022 – Mar 17th 2023)

Paytym App

- Paytym app enables employees to track attendance, payroll, deductions and many more.
- Additional features: QR code scanner, check in- check out slider, manage calendar, chat, split payment.

Drivers App

- Build for freelancing heavy vehicle drivers to find list of agencies which provide monthly based contract jobs. Agencies can use this app to track drivers.
